REVIEW 2025

GREEN ENERGY EXPO & ROMENVIROTEC IN NUMBERS

GREEN ENERGY EXPO & ROMENVIROTEC 2025 – the event that brought industry leaders together and put real solutions for the green transition on the innovation map.

www.greenenergyexpo-romenvirotec.ro

3 DAYS FULL OF IDEAS FOR A SUSTAINABLE FUTURE!

- ✓ 100% growth compared to the 2024 edition
- ✓ Over 8,800 visitors
[See who visited in 2025](#)
- ✓ A significant international presence, with participants from Switzerland, Poland, and China.

3 DAYS FULL OF IDEAS FOR A SUSTAINABLE FUTURE!

✓ The largest indoor pavilion in Romania and 2 outdoor platforms.

✓ 48 conferences and workshops

✓ 200 top speakers

✓ 2 halls & 2 stages full of vision and green energy

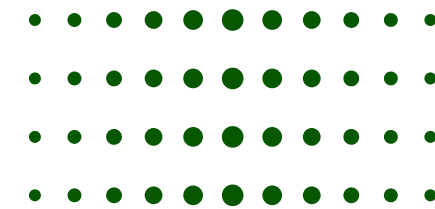

Over 500 brands from key industries such as solar energy, waste & water management, and smart city solutions showcased thousands of innovative technologies.

www.greenenergyexpo-romenvirotec.ro

From green technologies and smart recycling systems to energy, water, waste, and smart city projects – we were where change happens and took real steps toward a cleaner world.

THE PARTNERS WHO STOOD BY US IN 2025

GREEN ENERGY SECTOR

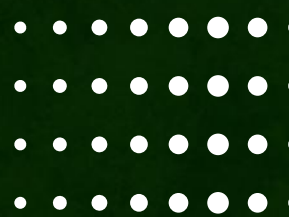

GREEN ENERGY EXPO 2025 – a true success for the green energy sector

2025 Highlights: This edition marked a milestone for the renewable energy industry in Romania.

The area dedicated exclusively to green technologies – solar (photovoltaic), wind, biogas, hydrogen, energy storage solutions, and electric mobility – **doubled** compared to the previous 2024 edition.

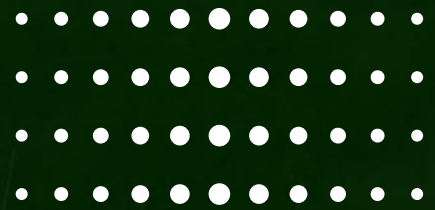

The leading players in the field, alongside international exhibitors, showcased groundbreaking technologies for energy production, storage, and efficiency for the first time.

A space for connection, innovation, and partnerships for a sustainable future.

WASTE MANAGEMENT SECTOR

Innovation, collaboration, and concrete steps toward a waste-free future

2025 Highlights: The 2025 edition of **Romenvirotec** confirmed the spectacular success of the **Waste Management sector**.

We expanded the exhibition space and opened new horizons, from **intelligent collection, automated sorting, textile recycling, bulky waste management, and hazardous waste handling to Waste To Energy!**

Key market players showcased revolutionary technologies for transforming waste into valuable resources and building a truly circular economy.

Exhibitors brought their expertise, energy, and innovations to this edition! Through their involvement, we succeeded in inspiring the entire industry.

A hub for connection, innovation, and partnerships for a cleaner future!

WATER MANAGEMENT SECTOR

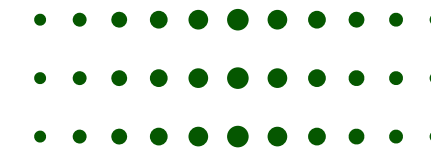

Romenvirotec's Growth Engine

2025 Highlights: This year's edition was also a remarkable success for the **Water Management** sector at **Romenvirotec & Green Energy Expo**.

With a strong focus on **innovation**, **digitalization**, and **energy efficiency**, we explored cutting-edge solutions for a "**Smart Water**" future.

Over 25 exhibiting companies demonstrated that water management is a key driver for a more responsible future in managing our precious resources.

Exhibitors in **water technologies** showcased the most advanced products and processes aimed at redefining how we manage water resources – from **sustainable infrastructure** for drinking and wastewater to **full digitalization** of monitoring and control processes.

URBAN SMART EXPO SECTOR

A hub of innovation and solutions for a better urban future

2025 Highlights: A surge of ideas and revolutionary technologies for cities – from **smart mobility** and **advanced public lighting** to **Smart Living** solutions and **digital governance**. Each booth represented a promise for a more efficient, sustainable, and citizen-friendly city.

The Congress of Mayors and Local Administration in Romania, organized by the **Romanian Smart City Association (ARSC)**, was a central highlight, discussing vital strategies for modernizing and sustaining communities. Topics ranged from **financing the green transition** and **digitalization** to **public-private collaboration**, emphasizing our collective commitment. The conference concluded with the **Public Administration Gala 2025**, celebrating excellence in sustainable development.

WHAT MAJOR INNOVATIONS DOES **GREEN ENERGY EXPO & ROMENVIROTEC** **BRING?**

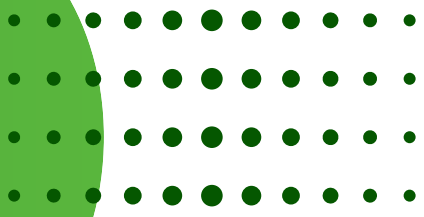

The **2026** edition of **GREEN ENERGY EXPO & ROMENVIROTEC** is set to reach a higher level – a true hub of innovation, networking, and business, where exhibitors meet decision-makers directly.

www.greenenergyexpo-romenvirotec.ro

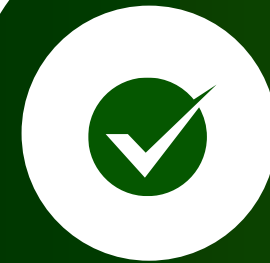

The Congress of Mayors and Local Administration in Romania returns with doubled scale: an expanded hall, a dedicated networking area, and guided tours of exhibition booths for mayors from across the country.

Over 400 mayors and representatives from central and local administration will return in 2026 to explore solutions and technologies that can be immediately applied in their communities.

One-on-one meetings in the VIP Center, facilitated by a dedicated concierge team.

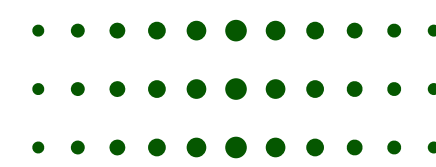

Public Administration Gala 2026 – an exclusive moment for recognition and maximum visibility for industry partners.

The congress agenda has been completely reinvented, focusing on results and on the critical topics for the energy and digital transition:

- **Rapid financing and implementation in under 12 months**
- **Resilient communities (energy, water, waste)**
- **AI, security, and local digital infrastructures**

8,800 professionals visited **GREEN ENERGY EXPO & ROMENVIROTEC**

The landmark event for the green transition in Romania

Over 3 days, over 8,800 professionals attended GREEN ENERGY EXPO & ROMENVIROTEC – the leading platform in Romania & SE Europe for green energy, sustainable technologies, and environmental protection.

Visitor profile:

- **Entrepreneurs (16%) & General Managers (9%)** – direct influence on purchasing & investments
- **Engineers, technicians, electricians (12%)** – seeking practical technical solutions
- **Procurement specialists, consultants, project managers** – strategic & technical expertise
- **Local public authorities (17%)** – mayors & institutional reps, actively supporting green transition projects

Conclusion:

The event confirmed its strong B2B character and relevance within the energy & environmental ecosystem.

High Interest from Multiple Sectors

Visitors came from a wide range of industries, with strong representation from:

- **Manufacturers of equipment and technologies (6%)**
- **Developers of renewable energy projects and distributors of green solutions (5%)**
- **Universities and research institutes (5%),** reflecting strong interest in innovation and academic–industry collaboration

Focus on green technologies and circular solutions

The analysis of product interest highlighted the dominant trends:

GREEN ENERGY EXPO

At GREEN ENERGY EXPO, the most in-demand solutions were:

- **Photovoltaic panels (15%)**
- **Inverters and energy storage batteries (23% combined)**
- **Electric charging stations and solar monitoring solutions (19%)**

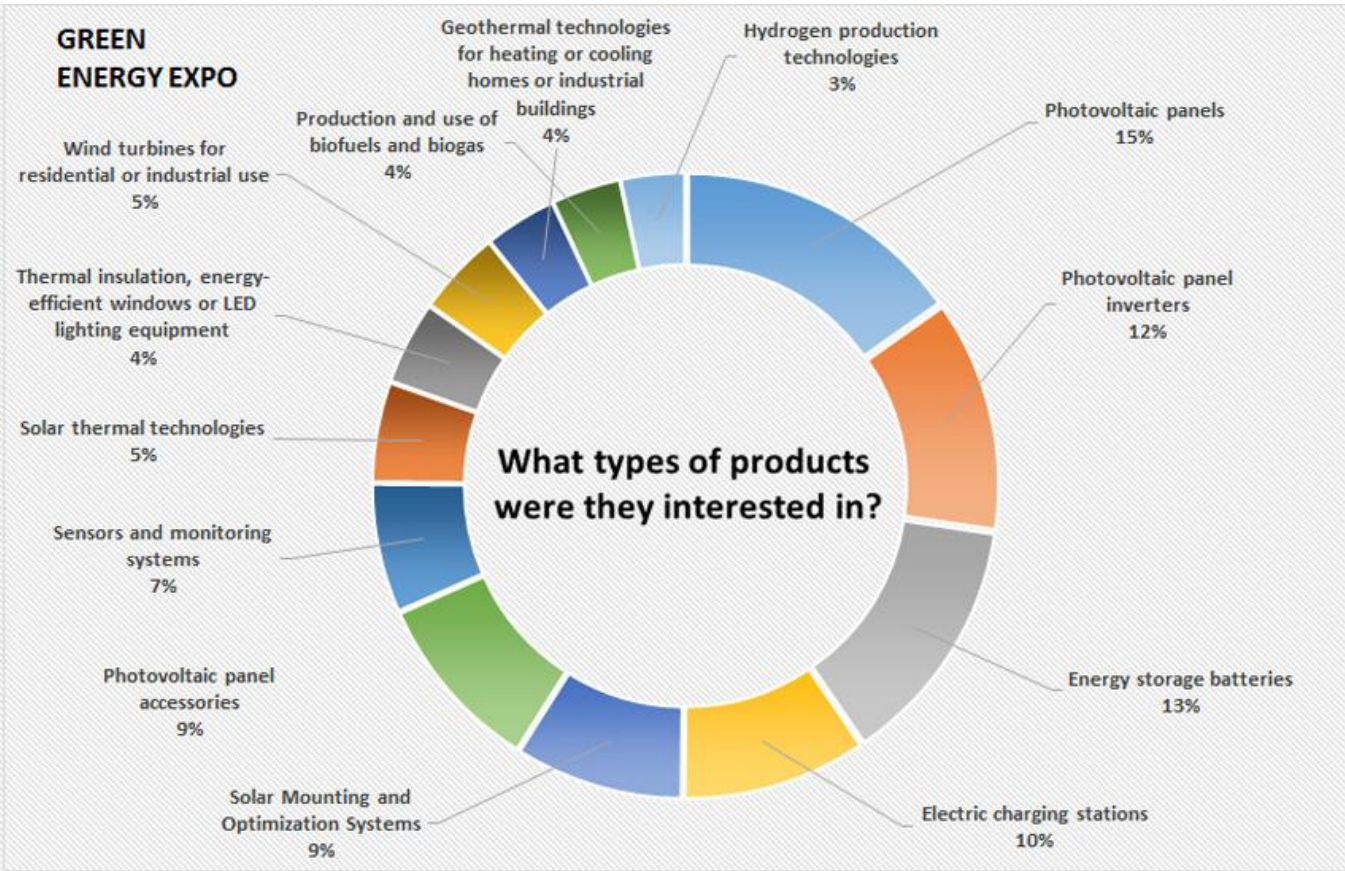

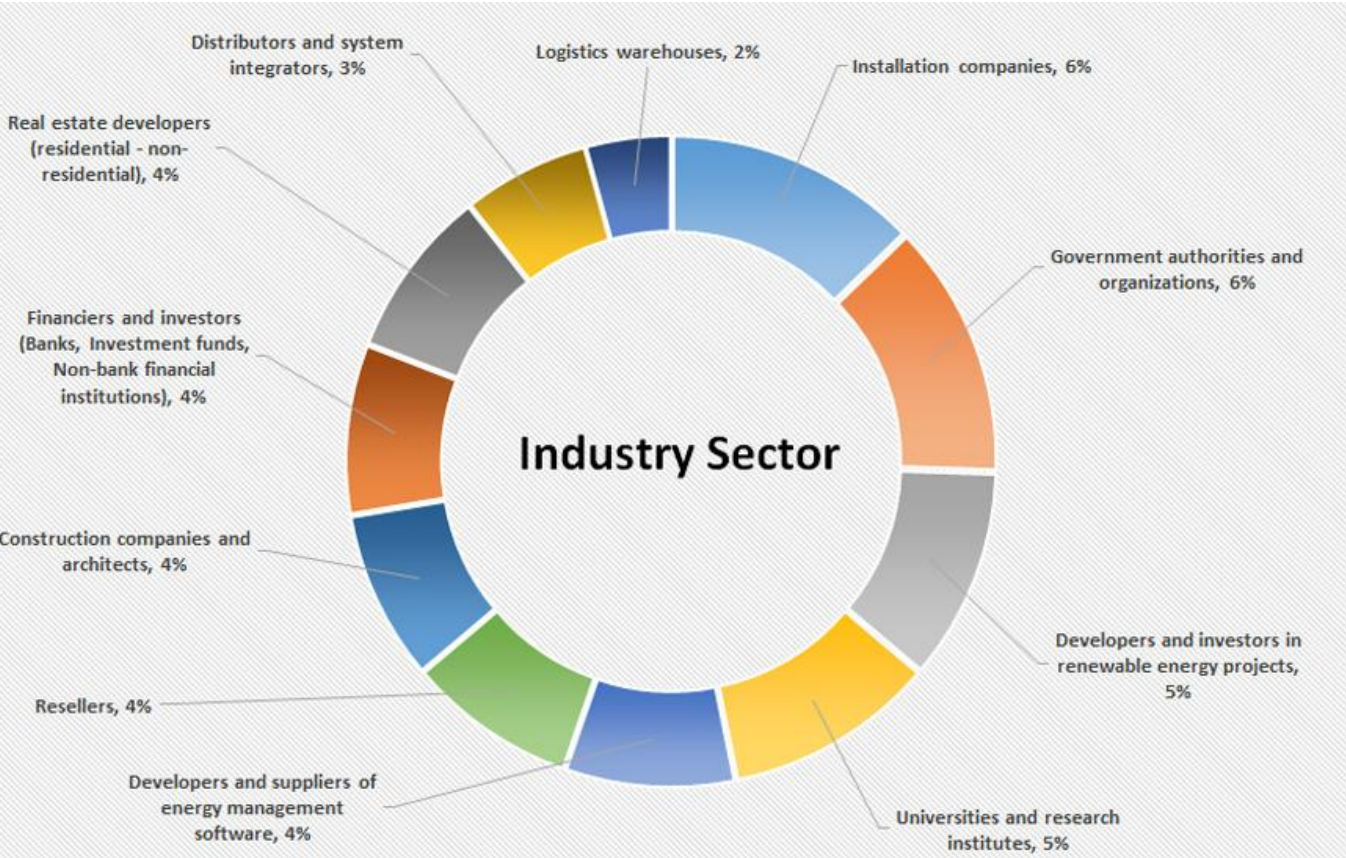

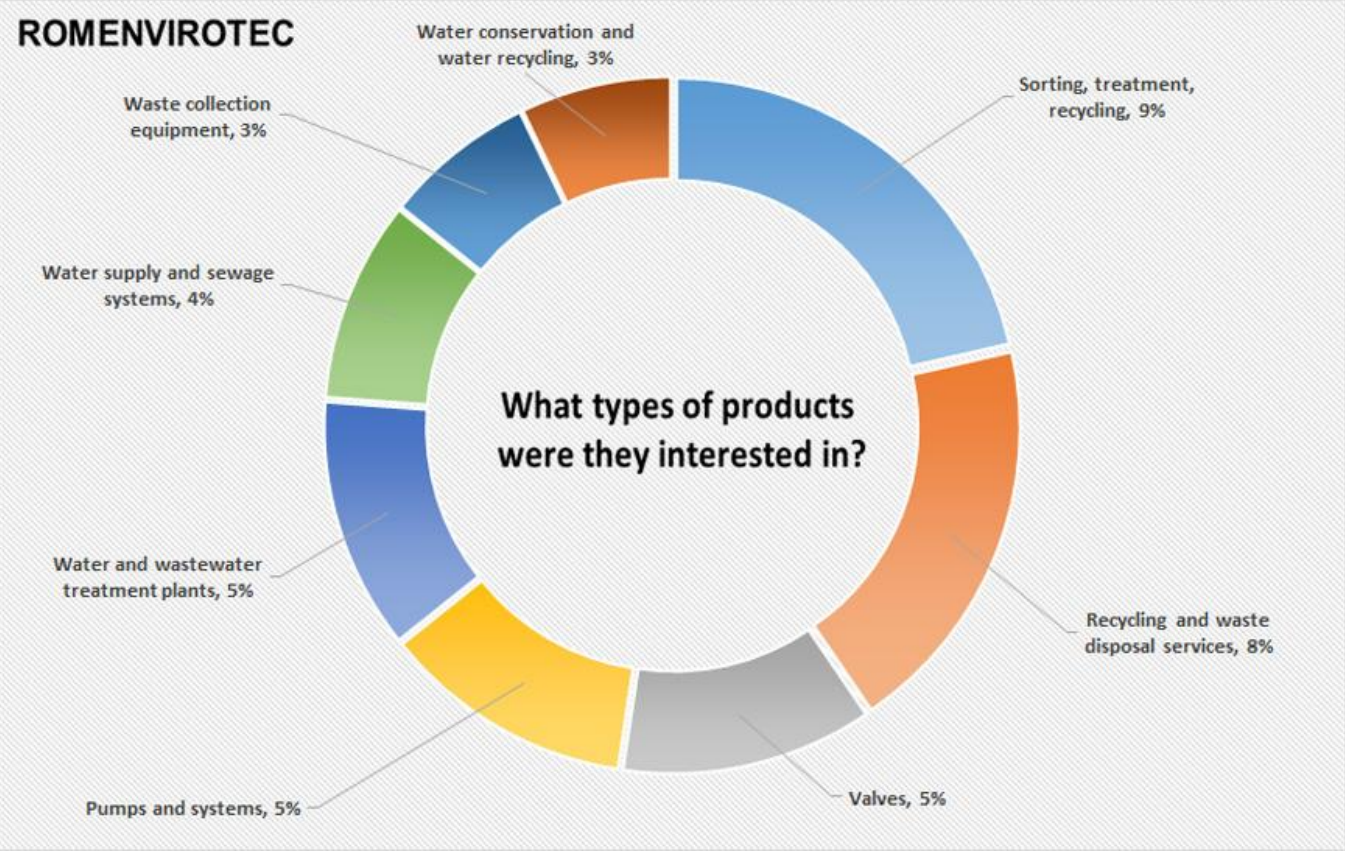

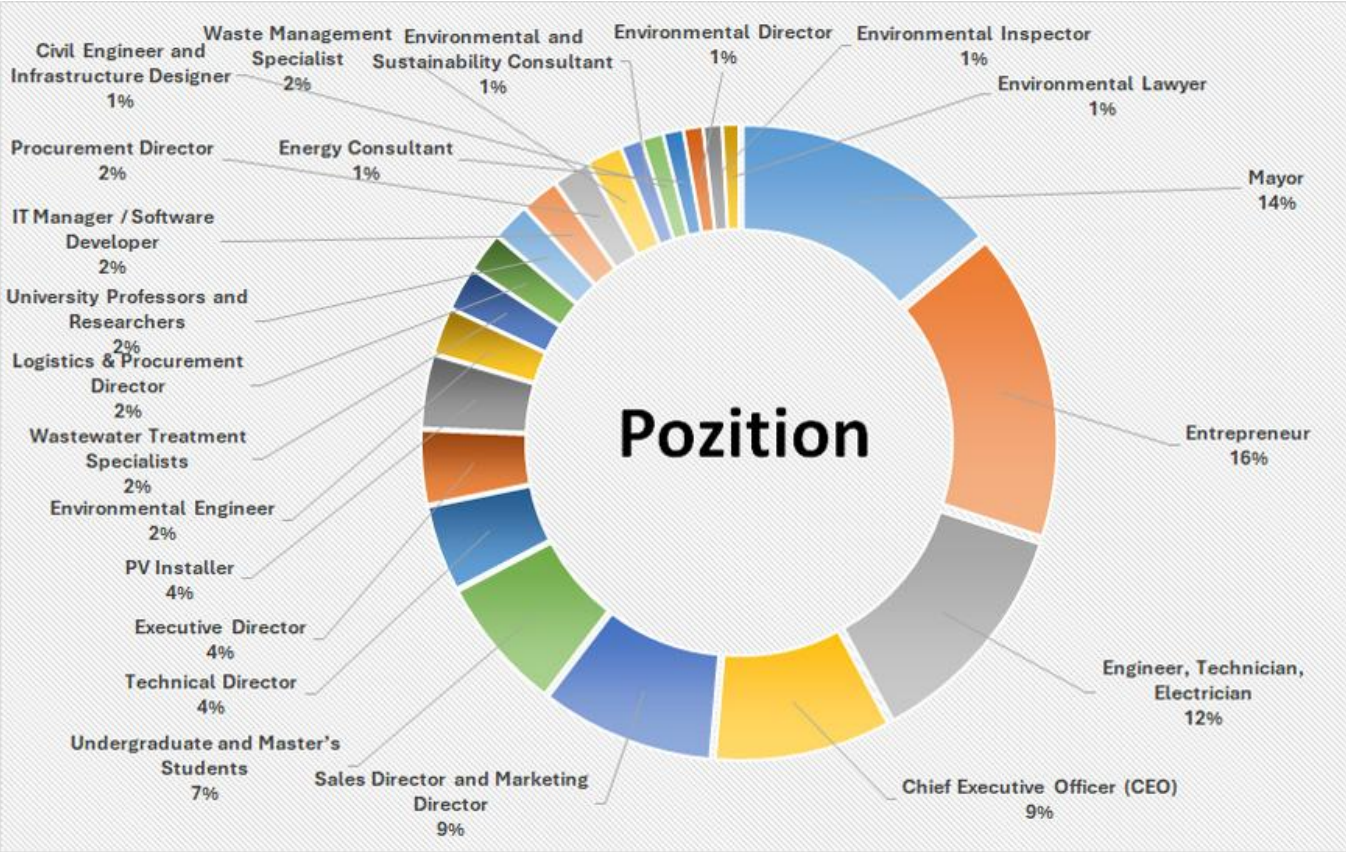

ROMENVIROTEC

At ROMENVIROTEC, visitors showed strong interest in:

- **Recycling, waste recovery, and waste-to-energy solutions (25%)**
- **Technologies for water conservation, wastewater treatment, and composting (15%)**
- **Hazardous waste management, soil remediation, and selective waste collection (16%)**

A Strategic Event for the Green Transition

Strategic hub for business, innovation, sustainability & green transition.

2026 EDITION

FROM LOCAL SUCCESS TO REGIONAL PLATFORM

With the support of the **Romanian Environmental Association**, the **2026** edition marks the launch of a strategic collaboration between **Romania** and the **Republic of Moldova**. This initiative provides exhibitors with expanded access to a rapidly growing regional market, facilitating cross-border partnerships in energy, waste management, and water sectors.

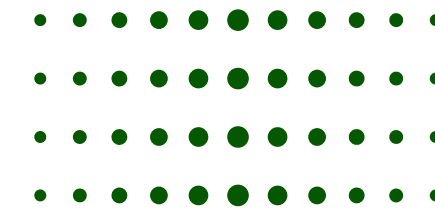

In **2026**, we cross borders and transform the event into a leading regional platform for Eastern Europe, bringing together authorities, global technology providers, industry associations, and thought leaders.

We are honored to announce the strategic partnership with the **Chişinău Regional Center of the Romanian Environmental Association**, a step that officially opens the doors to the **Republic of Moldova** and ensures visibility at both institutional and professional levels. A defining feature of the 2026 edition will be the **Official Pavilion of the Republic of Moldova**, bringing together companies and experts in the energy and environmental sectors to create a unique hub for regional cooperation.

GREEN ENERGY EXPO – ROMENVIROTEC 2026 thus becomes not just an exhibition, but an international meeting point for innovation, business, and public policy, with a direct impact on the sustainable development of the entire region.

WHAT WILL YOU BE ABLE TO SHOWCASE AT YOUR BOOTH?

- Solar, wind, green hydrogen technologies, and energy storage systems
- Solutions for waste management, collection, recycling, water treatment, and monitoring
- Innovations for smart cities and green infrastructure

Special zones:

- **DEMO AREA** – for live technology presentations
- **Start-up Village** – innovation and agility in a dedicated space

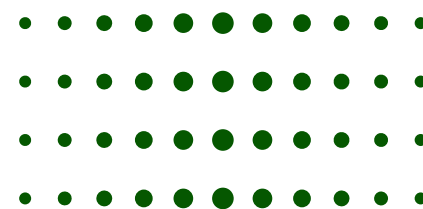

Direct Opportunities for Participants

- ☑ Expanded access to clients and partners from Romania and Moldova
- ☑ Public projects and investments through green funds
- ☑ Positioning within a regional ecosystem where green solutions are a necessity

.....
.....
.....
.....

For the 2026 edition of GREEN ENERGY EXPO, the prices remain unchanged from those applied at the 2025 edition, thus maintaining favorable commercial conditions for exhibitors.

- 
- ✓ **Participation fee:** 200 EURO per company
 - ✓ **Space rental:**
from 108 EURO/sqm (inline booth)
to 123 EURO/sqm (island booth)
 - ✓ **Booth construction:**
30 EURO/sqm (standard stand)
 - ✓ **Discounts for space rental:**
 - 5% for areas larger than 50 sqm
 - 10% for areas larger than 100 sqm
-
